

# ClickMap

## Module documentation

Thank you for buying our module. Our module is very easy to configure, but if you have any questions - don't hesitate to ask.

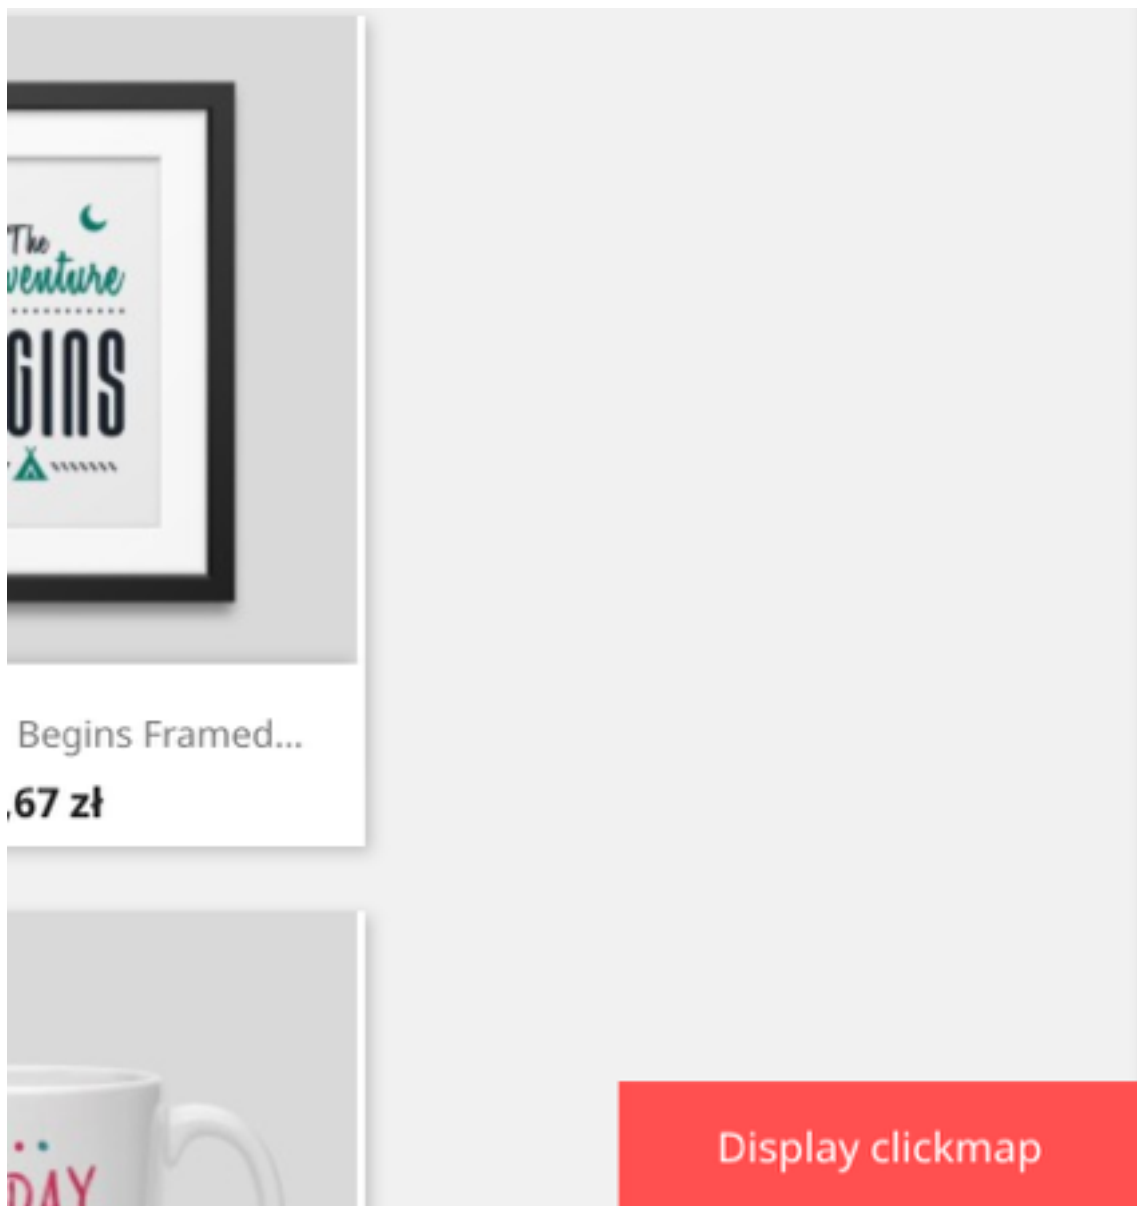

### Installation

The screenshot shows the Clickmap module installation interface. At the top center is a mouse cursor icon. Below it, the title "Clickmap" is displayed in a bold, black font. Underneath the title, the version "v1.0.0" and the developer "by Promedeli" are listed. A descriptive paragraph follows: "Clickmap allows you to visualize user clicks in your shop. It lets you see clickable areas and which attracts the attention of customers". A horizontal line is positioned below the description. In the bottom right corner, the word "Free" is written. At the very bottom, there is a blue-bordered button with the text "Install" in blue.

The module installation procedure is standard and requires no additional inputs.

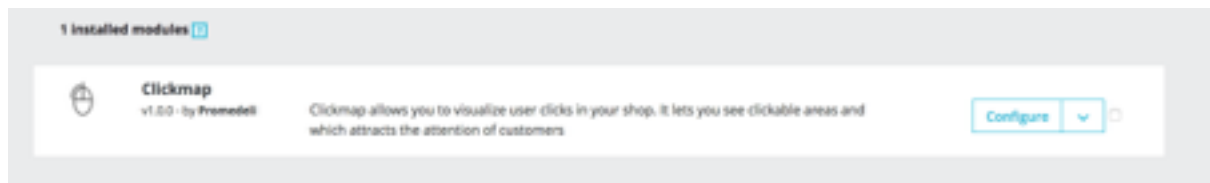

After installation an additional button will appear on the store's frontend. Access is restricted to logged in employees.

This button allows you to view the clickmap for the page you are currently viewing.

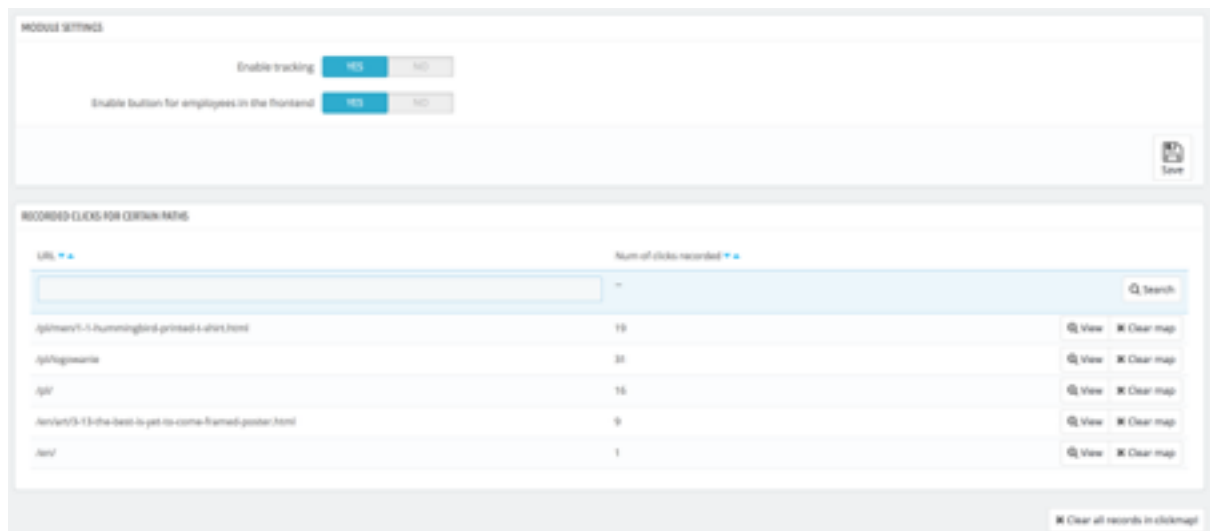

You can disable this button at any time by changing the option in the configuration panel. (see below).

To configure this module please click the **Configure** button for the Clickmap module in the module list:

## Configuration

The configuration panel will allow you to change the following parameters:

**Enable tracking** - Turn on/off tracking.

**Enable button for frontend employee access** - this option displays a button in the right bottom corner of the frontend. This button is only visible to logged in employees. After clicking this button you can view the clicked areas of the current page.

**RECORDED CLICK PAGES** - presents a list of pages which recorded clicks.

**Clear all records in click map** - this buttons clears all the clicks in your clickmap.

## Support

Configuring our module is very simple, but if you have any problems with it - you can contact us here:
